THREE LEGGED RACE

Engineering Records

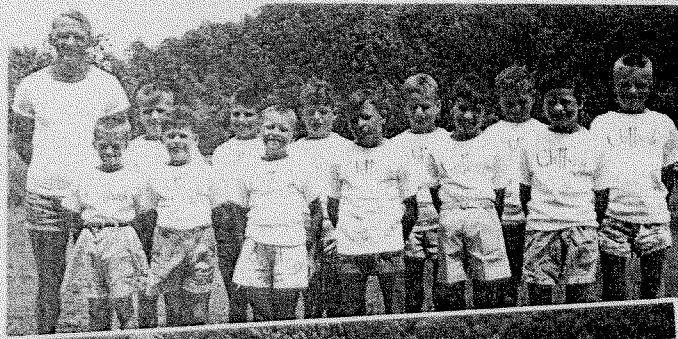

Eva Smith—Dean King

Say you like the Dickie Bird Song? Tell you what I'm goin' do. If it's a duet you want to hear, stop at the "take in" of the dark room and listen to FRED MORRIS and CLAUDE KELLEY. They must have been practicing for months. . . . Since we've mentioned FRED MORRIS, I guess we had better tell you he was recently on vacation. He didn't go anywhere but played golf all seven days, so we hear. . . . MARGARET MILLER also had one glorious week of her vacation which was very profitably spent. She went to Buckeye Lake in Ohio for the week-end. Doesn't it thrill you to hear those Ohio boys say I and My, Margaret? . . . JUNE PORTERFIELD said her vacation was most enjoyable. She went back to Peterstown. . . . That's about all for vacation talk; now for a little office news: Our KATY recently took thirteen days off with a sore throat. . . . Our hats off to DAVE HUGHES and EUGENE CLARK this month for just being wonderful! . . . CLAUDE KELLEY certainly is being envied by some in this department. He finally found a house that the price wasn't sky high and bought it. We all hope you will be very happy, Kelley. . . . I think HAROLD ZICKAFOOSE, WOODROW COLE and FRED MORRIS are running a race to see who can get the top of his head the brownest. Since Zickie is on vacation this week, Fred and Woodrow will have to stand in the sun double time on Saturdays and Sundays to catch up. . . . We are all hoping PAULINE WADDELL will be back with us soon. She has been ill for some time. . . . Happy birthday to HAROLD ZICKAFOOSE, CARL HOUSHOLDER and EVA SMITH. . . . Eva was so thrilled over the presents her husband gave her that she was about not to make it to work the next day. She got a Philco combination radio and record player, two lovely blouses, a Ronson table lighter and last, but by no means least, a dozen red roses. Can you blame her for not wanting to come to work? . . . DEAN was very disgusted with the Greyhound bus lines the other day. Do you know what time she got home from work? Nine o'clock! I can imagine that her date was kinda disgusted, too, having a date at eight o'clock and see Dean come dragging in from work at nine. Can't you just imagine some of the thoughts that ran through his head?

Mark Twain received a patent for a self-sticking scrapbook. He received more money from this book of blank pages than he did for many of his novels.
